The purpose of this Modification is to revise Attachment 12, Optional User Capabilities (Commercial off the Shelf (COTS) Catalog), to add Exhibit E as follows:

“Exhibit E - 5000 Series – Engineering Services

This Item represents requirements where evolving mission needs and/or IT objectives cannot be satisfied under existing CLINs, but are within the scope of the NMCI contract. Engineering Services provide the Government with advice, assistance, investigation, and/or coordination services for additional and/or emerging NMCI solutions. Examples of Engineering Services may include, but are not limited to, technical analyses to address requirements and solutions (including solution testing), implementation for additional IT services, additional technical support to determine legacy transition courses of action, site surveys and/or plans for possible infrastructure build-out in response to project MACs, and other IT support functions not otherwise provided. A deliverable document will be the primary method to satisfy the Government requirement, typically in one of the following formats: technical report, expert services recommendation, requirements document, or technical recommendation for new/enhanced IT services. Interim deliverables will not be provided unless specifically delineated in the requirement.

This item will be separately priced in individual task orders. A table of labor categories and rates for pricing individual tasks is posted with the CLIN 0023 Catalog.”

A conformed copy of the revised contract is made a part of this modification as a result of the changes outlined herein.

All other terms and conditions of contract N00024-00-D-6000 remain unchanged and in full force and effect.
